THE
SCOTTISH WIDOWS' FUND
Life Assurance Society.

ACCUMULATED FUNDS:
£18,000,000

ANNUAL REVENUE
£1,800,000

Reasons why so many
insure in

The Scottish Widows' Fund:—

It is the **Largest British** Life Assurance Office in which all the Funds belong to the Policyholders; and, as there are no shareholders,

The WHOLE PROFITS are DIVIDED among the ASSURED.

Life Assurance and Annuity business only is transacted, and the Society has no Foreign Branches or any Agencies outside the United Kingdom. Consequently the rate of Expenditure is very low, and

The Bonuses have always been very large.

Our New Printing Works

*Are now in process of building, as we have soon to make way for the much-needed widening of the Cowgate. Our new site is in Tannage Court (No. 7 Cowgate), and the building work is already far advanced. In the course of a few months we shall be able to show you the best that can be done in the construction and equipment of a Modern Printing Office—**Light, Air, Cleanliness, Convenience in working the various Departments, Effective Machinery, &c. &c.** Our Front Shop will afterwards be rebuilt in the most Modern Style on the site next to the corner of Murraygate and Cowgate.*

Meantime we are in good order for your esteemed commands. We have a large force of intelligent workmen, and we are able to fulfil even very large Contracts at short notice. All work turned out in first-class style.

*The attractive glimpse of scenery shown above is a specimen of **Three-Colour Printing**—only three printings being required to produce the most delicate and varied colour effects. We shall be glad to show the method to anyone interested.*

DUNDEE DIRECTORY,

1906-1907.

GENERAL NOTICE.

THE ever-changing trend of our industrial economics has long been a perplexing study to all concerned, and the fitful pendulations between extremes, which one day seems to verify a certainty and the next the reverse, are about as difficult to elucidate as an abstruse problem in science. The anxiety engendered is therefore incalculable. No sooner has a spurt been originated than it is checked, and well-directed effort paralyzed. Unaccountably high quotations step in and bar the way, and often some unforeseen circumstance has arisen and dulled the prospect. For the greater part of the year Dundee, fortunately, has experienced comparatively few of these undesirable vagaries, although it has not passed through the wonted round commercially scatheless. In the early part of the season prices for raw material ran up to a prohibitive standard, and for a time the usual negative strain prevailed. Though still ranging high, the tension has in a measure relaxed, and business has profited in equal proportion. There has been, and still is, an active demand for manufactured goods, briskness pervades the market, and producers and holders of goods have experienced a degree of confidence to which they have for long been strangers. At the same time, it has to be acknowledged that in some of the larger establishments machinery has not been so fully engaged as the present state of affairs seems to warrant. The reason for this, however, may arise entirely from purely local or individual conditions. The expansion of the jute industry in India is threatening the vitality of our home productions, and while for the moment we are full-handed, this continuous development abroad, which never was so pronounced as it is at present, forms a serious menace to the future security of our own enterprise, a state of matters the ultimate outcome of which it would be unwise to anticipate. If jute and all that pertains thereto have their weak points, flax is equally vulnerable. The latter, after passing through a period of comparative stagnation, some time ago underwent a revival which encouraged the hope that it would be maintained for a time at least. These expectations so far, however, have been marred by internal discord in Russia, and more especially as many of the shipping centres with which we have dealings have been almost paralyzed. Still, though fairly busy, our flax and tow products have not been considered financially encouraging, and spinners are not buoyed up with the idea of securing more than remunerative rates. The harmony which existed between employer and employed for a considerable time was unhappily disturbed in the early part of the year, the discord for the time being having an adverse influence on the continuity of good trade. The workers demanded

an all-round advance of 5 per cent. Resistance resulted in a strike, which included many establishments. It was evident that public feeling was against the bulk of the workers, though a good deal of sympathy was manifested towards the operative spinner, who, as a specialist, was thought underpaid. In the long run the dissension ended on the understanding that a levelling up process would be applied to that class of worker, a course which has since been adopted. Taking everything into account, affairs in Dundee are better—certainly not worse—than those which were in evidence twelve months since, and, to judge from the present boom, their continuance for a time may reasonably be depended on.

That various adverse elements have influenced our city is plainly indicated by the almost total eclipse of the building trades. The curtailment may only be temporary, but nevertheless this department of industry is at low ebb. Several projects which were foreshadowed last year helped to relieve the depression, but succeeded only to a small extent. Anything like briskness, or even normal conditions, in the near future is an eventuality which is not likely to occur. A few new streets have been opened, and several contracts, including the widening of St Andrew's Street, are terminated. There is a certainty, however, that in the course of next year, owing to development of electricity for lighting, tramway propulsion, and commercial adaptation, a new generating power station will be laid down, the present depot in Dudhope Crescent Road having become inadequate to meet prevailing requirements. A site at Carolina Port has already been obtained, and the imprimatur of the Corporation is the only obstacle which for the time bars the way to immediate progress. Another scheme of considerable dimensions has been formulated by the School Board, which has resolved to erect a large school for providing supplementary education. The site of the new school is at the north-east end of the city, and its object is to relieve the congestion of other seminaries in that district. The splendid pile of buildings in Ward Road erected for the accommodation of the *Courier* and its auxiliaries is about completed. It forms one of the most imposing and massive structures in the city, and from its central position and striking design it greatly enhances the architectural features of a neighbourhood already embellished by many fine edifices. Otherwise the work done recently was of a fragmentary character.

Negotiations are in progress for a site for a new Technical Institute, and a business-like attempt has been made to raise the necessary funds. An important movement is on foot by the Town Council. That body is to promote in next session of Parliament a Bill for Improvement, Tramway, and other purposes. The improvements are to embrace the widening of Cowgate, Gellatly Street, Magdalen Yard Road, and Peddie Street; and powers are to be taken for laying tramways in North and South Union Street; in South Road, Lochee; and along Strathmartine Road from the burgh boundary to Downfield. Powers are also proposed to be taken for the extension of the burgh boundaries, by which Downfield and part of the county between Broughty Ferry and Dundee—extending in all to 950

acres—will be included within the city boundaries. The municipality is also looking forward to considerable economies. Already the tramway fares have been lowered, and the prices of gas and electricity have been reduced. In this connection it may be pointed out that the map attached to the Broughty Ferry section of the Directory has been brought up to date to include the ground abovementioned, and defines its position between the two burghs. There is a likelihood of another scheme of magnitude being undertaken by the Council ere long. The congested state of Overgate and its inability to cope with the traffic, which is on the increase, is attracting general attention; so much so, in fact, that the widening of that thoroughfare must soon be faced. In so far as the Cowgate is concerned, it may be mentioned that the proprietors of the Dundee Directory, in view of the early demolition of the properties fronting the street, have begun the erection of a block of handsome business premises to the west of their present works. These, when finished and equipped, will greatly enhance the appearance of the locality.

From certain other standpoints Dundee is keeping abreast of the times. The Harbour, with its new wharf and sundry other improvements, has concluded a successful year. Seldom has the port been so busy, with the result that its finances show a very favourable balance. Shipbuilding, too, has been brisk, most of the yards being fairly employed.

Mr William Longair, who for a number of years efficiently discharged the duties of Convener of Works, on 10th November was unanimously appointed Lord Provost, in succession to Lord Provost Barrie, whose term of office had expired. Lord Provost Longair, who, in his robes of office, forms the frontispiece to this year's Directory, is a leading member of the firm of Messrs James Paterson & Co., manufacturers, Lawside Works. Entering the Council in November 1896, his abilities as an administrator were speedily recognised, and under his supervision Seagate has been widened, St Andrew's Street opened up, many old properties in these localities demolished, and the new Esplanade wall reconstructed. In private and public life the Lord Provost is courteous to a degree; and his capacity to fill the honourable position to which he has been appointed is well known and has long been recognised.

From a municipal standpoint, the year has been fraught with unexpected results. The question of the running of tramway cars on Sundays, which had engaged the public attention on a previous occasion, was again raised in August last, and on September 5th a vote, which was by plebiscite, announced a favourable majority of 4,129. The total votes recorded were 19,121, out of an electorate of 22,424. Though not unexpected, the large majority caused much surprise. A factor which no doubt helped to influence public opinion on this vital question lay in the opening of the Dundee and Monifieth tramways, which ran for the first time on 27th December last, the directors having determined to use their lines for Sunday traffic. Apart from Sabbath use, the new route has become very popular.

An innovation of a semi-social nature has been arranged by the Town Council. On Sabbath, 19th November, the Museum and Galleries were thrown open to the public, a practice which has since been continued. Throughout the season large numbers of people took advantage of the privilege, principally in the evenings. In connection with this department, the agitation, which had lapsed for a time, is again arising to secure sites for a central and branch Libraries, for the establishment of which the Carnegie bequest is to be utilised. It is probable that when these are formed the Libraries and Reading-Rooms will, like the Museums, be open on Sabbaths, as attempts, with the resources we have, already have been made with that end in view. An item of educational interest this year is that in April last a new School Board was elected. One of its salient features is the addition of another lady to its ranks. Mr G. K. Smith, Convener of Evening Schools, has succeeded Rev. W. A. Dunbar as Chairman. In Parish Council circles there have been two distinct diversions. Mr James Kyd, who for a number of years acted as Inspector, having received a similar appointment in Edinburgh, was succeeded on 22nd February by Mr Robert Allan, of Brechin; and Mr and Mrs Grossart, both of Dundee, were elected on 22nd May as Governor and Matron of West Poorhouse in succession to Mr and Mrs T. D. Aitken, resigned.

The unexpected often happens in Parliamentary as well as in municipal affairs. On December 4th the Government, of which the Right Hon. A. J. Balfour was Premier, resigned, and a new regime, presided over by the Right Hon. Sir Henry Campbell-Bannerman, reigns in its stead. Sir John Leng, on account of advancing years, did not seek re-election, and Mr Henry Robson, a London stock-broker, was selected to fill his place. The Labour Representation Committee, a body growing in number and influence, ran Mr Alexander Wilkie, General Secretary of Shipwrights' Association, as a candidate, and the Right Hon. Edmund Robertson, K.C., sought a renewal of confidence. A stiff contest ended in the election of Mr Edmund Robertson and Mr Wilkie, the latter being the first Labour member appointed for Scotland.

The obituary of the year shows that many well-known useful citizens have passed away. These include Alexander Hay Moncur, J.P., D.L., and ex-Provost of the city; Colonel (and Councillor) William Smith; Dr Peter Grant; Mr Robert Murdoch, banker; Lord Dean of Guild Peters; Mr John Whytock, goldsmith and jeweller; Captain David Edwards; Mr James Salmund, civil engineer; Mr John Pellow, printer; Mr John Adam, twine spinner—almost a centenarian; Mr L. F. Zoller, merchant; Mr James Hardie, chemist; Mr Robert Shepherd, banker; Mr James Durham, stationer; Dr David Steele Moon; Mr William Gibson, jun., the result of a painful accident; Mr William Miller, retired banker, each and all being men of outstanding capacity and high intelligence.

They may not exceed $5\frac{1}{2}$ by $3\frac{1}{2}$ inches in size, or be less than $3\frac{1}{4}$ by $2\frac{1}{4}$ inches. The rules in the preceding paragraph also apply to Private Cards.

EXPRESS DELIVERY OF LETTERS AND PARCELS.

There are three systems by which letters and parcels can be specially delivered, as under:—

- (1) *By special messenger all the way.* For a letter or packet the Express fee (inclusive of charges for omnibus, tramcar, railway, &c.), is:—For every mile or part of a mile, 3d. (Ordinary postage is not charged). Every packet must be handed in over the counter, and must have the words "Express Delivery" boldly marked above address.

If the sender desires, or it is otherwise necessary, that a special conveyance be used, the fare or cost of such must be paid in addition to the mileage fee.

On the delivery of an Express packet, the messenger may take a reply, or perform a further delivery service. The fee must be prepaid either by the sender of the first service or by the sender of the reply or further service.

When several packets are tendered by one sender for delivery by the same messenger at different addresses, or to different persons at same address, the Express fee of 3d a mile will be charged for the full distance to be traversed by the messenger, and an additional fixed charge of 1d for each article above one.

- (2) *By special messenger after transmission by post.* In addition to the full ordinary postage the Express fee is:—For every mile or part of a mile from office of delivery, 3d. Letters may be posted like ordinary letters, but they must be marked "Express Delivery," and have a thick perpendicular line drawn on each side of the envelope.

(3) *By special delivery in advance of the ordinary mail.* Persons who desire at any time to receive their letters or parcels in advance of the ordinary delivery may have them delivered by special messenger on payment of the following fees, viz. :—The full Express fee of 3d a mile as for one packet, and 1d for every 10, or less number of additional packets.

INLAND PARCEL POST.

Parcels *not exceeding 11 lbs. in weight, 3 ft. 6 in. in length, or 6 ft. in length and girth combined*, are received at any Post Office for transmission between places in the United Kingdom. The rates of postage are :—

Not exceeding 1 lb. in weight,	3d	Exc. 5 lbs. and not exc. 6 lbs.,	8d
Exc. 1 lb. and not exc. 2 lbs.,	4d	„ 6 lbs. „	7 lbs., 9d
„ 2 lbs. „	3 lbs., 5d	„ 7 lbs. „	8 lbs., 10d
„ 3 lbs. „	4 lbs., 6d	„ 8 lbs. „	9 lbs., 11d
„ 4 lbs. „	5 lbs., 7d	„ 9 lbs. „	11 lbs., 1s

Postage stamps to the required amount must be affixed by the sender, and parcels must not be posted in a letter-box, but must be taken into a Post Office and handed over the counter. A certificate of posting may be had on application.

Parcels containing fish, game, meat, eggs, &c., or razors, scissors, needles, knives, forks, or other sharp instruments, are not accepted unless securely packed so as to guard against risk of injury to other parcels. Liquids or semi-liquids, such as jellies, pickles, paint, varnish, &c., are not accepted unless in bottles or cans securely stoppered; nor powders, unless well packed. Live bees are allowed to pass by letter or Parcel Post, if sent in suitable cases, so packed as to avoid all risk of injury.

In order to facilitate the return of parcels which cannot be delivered, it is most desirable that the name and address of the sender should appear on the outside of every parcel.

Compensation for the Loss or Damage of Unregistered Inland Parcels.

If a parcel is not registered, the Postmaster-General will accept liability up to £2, without payment of any fee beyond the postage, provided that—(1) the parcel is posted in the manner prescribed for the posting of parcels, and the postage prepaid; (2) a certificate of posting is obtained from the officer receiving the parcel; (3) the contents of the parcel are securely packed.

No compensation (either for loss or damage) will be given in respect of a parcel containing (1) anything which may not be sent by Inland Parcel Post; (2) money; (3) a watch or jewellery, unless registered.

No compensation will be given in respect of damage to a parcel containing eggs, soft fruit, liquids, or any exceptionally fragile or perishable articles; but, in all such cases, compensation will be given in respect of the loss of the parcel, or of any article contained therein.

INLAND REGISTRATION.

The ordinary registration fee for each inland letter, parcel, or other postal packet, is 2d.

The Postmaster-General will (subject to certain rules) give compensation for the loss or damage of Registered Correspondence (including Parcels) if the following fees have been prepared :—

Fee 2d, Compensation £5	Fee 5d, Compensation £60
„ 3d, „ £20	„ 6d, „ £80
„ 4d, „ £40	„ 7d, „ £100

and so on at the rate of 1d for every £20 up to—Fee 1/10, Compensation £400.

Every article presented for registration must be enclosed in a strong cover securely fastened with gum or other adhesive. It must be given to an Agent of the Post Office, and a receipt obtained for it. If an article marked "Registered" be dropped into a letter-box, it will be liable to a registration fee of 4d (less any amount prepaid for registration).

Every article presented for registration should be marked "Registered," and with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus—"Registered 2d," or "Registered 3d."

Inland postal packets containing coin, watches, or jewellery, if posted without registration, are subject to compulsory registration, and are charged on delivery with a fee of 4d, in addition to the ordinary postage. Letters containing Postal Orders in which the name of the payee has not been inserted, uncrossed cheques, dividend warrants, bank notes, postage stamps to the value of more than ten shillings, will, when found open in the post, or when opened in the Returned Letter Office, be subject to registration, and be chargeable with a registration fee of 2d. Like treatment is applied to parcels containing articles (other than coin, watches, and jewellery) of considerable value, and to letters containing any article of a value exceeding ten shillings. Money of any kind must be enclosed in a Registered Letter Envelope and transmitted by Registered Letter Post. The compensation in respect of coin will in no case exceed £5.

The sender of an Inland postal packet may obtain an acknowledgment of its due delivery by paying, at the time of posting, a fee of 2d in addition to the postage and registration fee.

RE-DIRECTION.

Letters, halfpenny packets, post cards, and newspapers are not liable to additional postage for re-direction, whether re-directed by an officer of the Post Office or by an agent of the addressee after delivery, provided in the latter case that the letters, &c., are re-posted not later than the day (Sundays and public holidays not being counted) after delivery, and that they do not appear to have been opened or tampered with.

Parcels are, when re-directed, liable to additional postage at the prepaid rate for each re-direction, except where the original and corrected addresses are both within a delivery from the same Post Office.

Registered letters, &c., when re-directed, must either have the word "registered" erased with ink before being re-posted, or they must be taken back to the Post Office to be dealt with as registered.

A Postmaster is not bound to re-direct letters for a person temporarily leaving home (unless the house be left uninhabited), nor to re-direct letters addressed to clubs, hotels, boarding-houses, or lodgings.

POSTE RESTANTE.

Correspondence of any kind to be called for is, as a rule, taken in at all Post Offices except Town Sub-Offices. The Poste Restante is for accommodation of strangers and travellers, but they may not use it for more than two months.

Parcels addressed to a Post Office to be called for, or to a person residing beyond the free postal delivery, are kept three weeks. At the end of one week, if the parcel bears on the outside the sender's name and address, notice of the fact that the parcel has not been delivered is sent to him.

Parcels addressed to a Post Office "to be called for," are liable to a demurrage charge at the rate of 1d a day. No demurrage is charged on parcels addressed to persons on board ship.

MONEY ORDERS.

The commission on Inland Money Orders is:—For sums not exceeding 1—2d; £3—3d; £10—4d; £20—6d; £30—8d; £40—10d.

When applying for Money Orders, the public should use the printed “Application Forms,” which are supplied gratuitously at all Money Order Offices, and should state thereon as fully as possible the name or designation of the payee.

The remitter of an Inland Order may direct at the time of issue, that the order be crossed like a cheque thus, & Co., and thus be payable only through Bank, or he may cross the Order after obtaining it.

Money Orders for amounts not exceeding £40 are issued free of charge when required for the remittance of Corporation Duty, Income Tax, Inhabited House Duty, Land Tax, Excise Duties, or Legacy and Succession Duties.

Money may be transmitted by Telegraph Money Order in the United Kingdom. The commission is:—(1) The ordinary Money Order poundage as above; (2) a charge at the ordinary Inland rate for the Official Telegram authorizing payment at the Office of Payment, the minimum being 6d; and a fee of 2d for each order. PREPAYMENT OF LETTERS, &C., IN MONEY.

Inland Letters, Post Cards, Halfpenny Packets, and Parcels, may be prepaid in money, provided that the amount paid be in no case less than £1, and that the letters and packets be tied in bundles representing a postage of 5s each with the addresses all arranged in the same direction. Prepayment, however, cannot be made partly in money and partly with stamps, and the money must be paid at the time the letters, &c., are handed in at the Head Post Office. Hours of posting under this arrangement, 10 A.M. till 4 P.M.

FOREIGN AND COLONIAL LETTERS.

The rate of postage to be prepaid on letters for all Foreign Countries (except Egypt) is 2½d per half ounce, and for Egypt and nearly all British Possessions 1d per half ounce. The only exceptions are Bechuanaland, Rhodesia, and a few small groups of islands, to which the rate is 2½d per half ounce. (See pp. 145-148.)

No letter for a colony or foreign country may exceed 2 feet in length or foot in width or depth.

The addresses of letters for Russia should be very plainly written, and the name of the town and province should also be added in English, French, or German.

FOREIGN AND COLONIAL PRINTED PAPERS AND COMMERCIAL PAPERS.

Articles which may be sent to places abroad under these designations consist of two classes, as follows:—

(a) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal, written on stamped or unstamped paper, Way Bills, Bills of Lading, Invoices, and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, pupils' exercises with corrections, and other papers of a similar description.

(b) "Printed Papers." The articles which may be sent at the rate applicable to Printed Papers are mostly impressions or copies obtained upon paper, parchment or card-board, by means of printing, lithography, engraving, photography, or any other mechanical process easy to recognize. This description includes newspapers, periodical works, books (stitched or bound), pamphlets, sheets of music, visiting cards, address cards, proofs of printing, plans, maps, catalogues, prospectuses, announcements, circulars, notices, engravings, photographs, designs, manuscript for press (when sent with proofs of same), papers impressed for use of the blind, or card-board drawing models stamped in relief, and anything (not being of glass) usually appurtenant to any of the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission which shall be contained in the same packet. Postage stamps, obliterated or not, and all printed articles constituting the sign of a monetary value, are excluded. The products of the copying press and the typewriter are not admitted, nor, as a rule, are printed papers which have been modified after printing, either by hand or by a mechanical process. But the following exceptions are allowed:—Printed circulars may be dated in manuscript or by a mechanical process, and the signature of the sender, his trade or profession, and his address may be added; on printed visiting cards the address of the sender, or formulas of courtesy in not more than five words may be written, and on printed circulars manuscript corrections and insertions may be made as to names of commercial travellers, dates of journey, dates of departure of ships, names of persons invited to meetings, and the place, date, and object of the meetings; printers' proofs may be corrected in manuscript, errors in other printed documents may be corrected, and figures may be inserted in prices current, stock and share lists, &c.; books, music, photos, and engravings may have a dedication inscribed on them, and the invoice relating to them may be inclosed; in orders for books printed on cards, the works required or offered may be indicated in manuscript; to cuttings from periodicals, the title and date of the publication may be added. Circulars printed or lithographed in characters resembling those of the typewriter, or produced from typewritten originals, will be admitted at the Book rate, provided that they are handed in at the counter of Head Post Office, that special attention is called to their nature, and that at least twenty copies are posted at the same time. Blank paper, note-paper or envelopes, and articles of stationery are inadmissible.

The rate of postage on Printed Papers and Commercial Papers for all places abroad is $\frac{1}{2}$ d per 2 oz. For Commercial Papers the lowest charge is $2\frac{1}{2}$ d, for which sum, however, a weight of 10 oz. may be sent. If there be any mixture of the two in the same packet the whole packet is treated as Commercial Papers.

Commercial Papers and Printed Papers may be posted either without a cover (in which case they must not be fastened by gum or otherwise), or in an envelope left unfastened, or in a cover open at both ends. The packet may, however, be tied at the ends with string easy to unfasten.

To secure the return of packets which cannot be delivered, the name and address of the sender should be written or printed outside.

The limit of size for British Colonies or Possessions or non-Union countries are 2 feet in length by 1 foot in width or depth; but to Foreign Countries in the Postal Union the length is limited to 18 inches. If in the form of a roll the limits of size in either case are 30 inches in length and 4 inches in diameter. The limits of weight are 5 lbs. for British Colonies or Possessions, and for non-Union countries or colonies; and 4 lbs. for Foreign Countries in the Postal Union.

FOREIGN AND COLONIAL SAMPLES.

There is a Sample Post to Foreign Countries and the Colonies generally; but it is restricted to *samples of merchandise or scientific specimens*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually samples or specimens, are not admissible.

No article liable to Custom Duties can as a rule be sent as a sample.

The rate of postage is $\frac{1}{2}$ d per 2 oz., except that the lowest charge is 1d, for which sum, however, a weight of 4 oz. may be sent.

Patterns or Samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs, and such like, may be posted enclosed in boxes or bags fastened in such a manner that they may be readily opened.

There must be no writing or printing upon or in any Sample Packet for non-Union countries, except the address of the person for whom it is intended, the address of the sender, a trade mark or number, the price of the articles, the weight or size, and the quantity to be disposed of, or such as may be necessary to indicate the place of origin or the nature of the merchandise. A packet for a country in the Postal Union may contain Printed Papers, and if the rates for Commercial Papers be paid, it may also contain Commercial Papers.

Liquids, glass, greasy substances, colouring powders, and live bees may be sent only to some foreign countries when they conform to special conditions as to packing, &c.

The limit of weight for British Colonies or Possessions or for non-Union countries is 5 lbs., but for Foreign Countries in Postal Union the limit is 12 oz.

The limit of size for British Colonies or Possessions or for non-Union countries is 2 feet in length by 1 foot in width or depth; and for foreign places in the Postal Union 12 inches in length, 8 inches in width, or 4 inches in depth; unless it be in the form of a roll, in which case the limit of size is 12 inches in length and 6 inches in diameter.

REGISTRATION AND INSURANCE OF FOREIGN LETTERS, &c.

The fee for registration of letters, post cards, commercial and printed papers, and samples, addressed to places abroad, is 2d. Articles to be registered must be enclosed in a strong envelope, and given to an agent of the Post Office. To some countries it is forbidden to send coin, jewellery, or precious articles.

Letters may be insured to many foreign countries. Such letters must be securely fastened and sealed with private seal, and presented at the counter

of a Post Office. The sums payable for insurance, including registration, are as follows:—To secure compensation up to £12, a fee of 5d; £24, 7½d; and so on at the rate of 2½d for every additional £12, up to £120, 2s 3½d.

GOVERNMENT INSURANCES AND ANNUITIES.

Insurances may be effected for amounts not less than £5 and not more than £100 to persons between 14 and 65 years of age; and Annuities may be purchased for amounts not less than £1 and not more than £100 on one life. Children between 8 and 14 years of age can be insured for £5. Forms of proposals may be obtained at the Post Office.

DATES OF DESPATCH AND ARRIVAL OF MAILS.

See Separate Table for Parcel Postage and Mails (page 151).

Letters not specially directed by a particular route are, as a rule, forwarded by the first mail despatched.

Single and Reply Official Post Cards are transmissible to all parts of the world—Single Cards, 1d each; Reply Cards, 2d each. (Inland Post Cards are transmissible abroad if the additional postage required is supplied by postage stamps being affixed.) Engravings or advertisements may appear on the front of a Post Card, if they do not interfere with the clear indication of the address, in addition to the name and address of the recipient in writing or on a gummed label not exceeding in size 2 inches by $\frac{3}{4}$ in., and the name and address of the sender indicated in writing, or by means of a stamp, or any topographical process.

Private Post Cards bearing adhesive stamps of the value of one penny, and private reply cards with adhesive stamps of the value of one penny on each half, may be sent as post cards to places abroad, provided that they are in conformity with the official post cards. They must be of the same size and substance as the official cards, and must have the words "Post Card" printed or written on the address side. The reply halves of private double cards must bear the words "Post Card—Great Britain and Ireland" and "Reply." Plain cards without any inscription cannot be sent abroad as Post Cards.

FOREIGN AND COLONIAL PARCEL POST.

For places named in the Table of Parcel Postage—other than those detailed above—same as for Inland Parcel Post.

The postage must in all cases *be paid in advance*, by means of postage stamps affixed by the sender. Each parcel must be plainly directed, and should bear the words "Parcel Post" in the upper left-hand corner, and the name and address of the sender. The date of posting should also be added. A parcel must not be posted in a letter box, but, as in the case of the Inland Parcel Post, must be taken into a Post Office and presented at the counter.

Parcels will be liable to Customs duties and regulations, and the sender of each parcel will be required to make a Customs declaration furnishing—upon a special form provided for the purpose, which can be obtained at any Post Office—an accurate statement of the contents and value, the date of posting, and other particulars. Arrangements have been made with many Foreign Countries whereby senders may take upon themselves the payment of the Customs charges if they so desire.

No letter whatever may be sent in a parcel addressed to any Foreign Country, or to many British possessions. Invoices in open envelopes, giving particulars of the goods contained in the parcel may, however, be enclosed.

Parcels containing coin, watches, jewellery, or any article of gold or silver, cannot be sent by Parcel Post to any Foreign Country or British Possession in-

cluded in the insurance system, unless they are insured for at least part of their value, and packed according to special regulations.

Parcels should be securely packed, and must, if for Foreign Countries, be so sealed that they cannot be opened without the seals being broken.

COMPENSATION FOR LOSS OR DAMAGE.

The Postmaster-General will, subject to certain rules, give compensation for the loss or damage of uninsured parcels sent by Parcel Post to various Foreign Countries (to amounts not exceeding 12s and 20s) when such loss or damage takes place while the parcels are under his custody; and in the case of parcels lost or damaged while under the control of the Post Offices of these countries, the Postmaster-General will endeavour to obtain compensation for the senders.

POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 6d for the first 12 words, and $\frac{1}{2}$ d for every additional word. Addresses are charged for.

Forms with embossed stamps can be obtained either singly or in books of 20, interleaved, and with a sheet of carbonic paper, price 10s 2d each book.

When the terminal office is a Head Post Office, the amount paid for transmission covers the cost of delivery within three miles or within the town postal delivery when that extends for more than three miles. But when it is not a Head Post Office, the message is delivered free within three miles only. The portage on messages for places beyond the limits of the free delivery will be at the rate of 3d a mile or part of a mile, the charge being reckoned from the limit of the free delivery.

Copies of a telegram directed to more than one person in the same free delivery are delivered at a charge of twopence per copy, in addition to a half-penny for each word in the address of the copy.

Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate" in a wall or pillar-box, or Sub-Post Office. Telegrams so posted are sent on by next collection to the Telegraph Office for transmission free of extra charge, provided that the proper amounts have been prepaid.

No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven." Certain exceptional names, such as O'Neil, MacDonald, De la Rue, are charged for as single words. So, too, are names with the prefix "St," as St Pancras; but double names of persons, like Smith-Payne, are counted as two words.

Abbreviations of words, "can't," "won't," "don't," are counted as single words.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division. In groups of figures a stop is counted as a figure. The symbols o/o, a/c, b/l, and c/o are each counted as one word. In ordinal numbers the affix st, nd, rd, or th is counted as two figures—thus "1st" counts as one word, "1432nd" as two words. When figures are preceded or followed by a letter (except in the case of ordinal numbers), the letter is counted as a word. Initial letters are each counted as one word, with the exception of the initials of the London Postal Districts, which are counted as one word for each group. Names of towns and villages in the United Kingdom are counted as one word each.

Anyone may register an abbreviated address on payment of a guinea a year.

The cost of a reply, not exceeding forty-eight words, may be prepaid, and a reply form will then be delivered to the addressee, who will be at liberty to send his reply, from any telegraph office, at any time within two months.

Telegrams can be repeated, if the sender desires it, by being signalled back from office to office. No copy is, in such case, given to the sender. The charge for repetition is one-half the ordinary tariff. Telegrams containing mercantile quotations or figures, and telegrams written in cypher, or according to a preconcerted code, should always be repeated.

FOREIGN TELEGRAMS.

Foreign telegrams are of two kinds, telegrams in plain language and telegrams in secret language. Those in plain language are composed of words,

figures, and letters conveying an intelligible meaning. Those in secret language are divided into: (1) preconcerted language or code, (2) cypher.

Code language is composed of real words not forming comprehensible phrases, or of artificial words having the appearance of real words. Words of more than ten letters are not allowed. In Code telegrams English, French, German, Italian, Spanish, Portuguese, Dutch, and Latin, may be employed, whilst artificial words must be pronounceable according to the usage of these languages.

Cypher telegrams are those containing figures or letters having a secret meaning. It also includes groups of letters which cannot be pronounced according to the usages of the languages. Letter and figure cypher cannot be combined.

The address of the sender is charged for, if transmitted; in any case it must be written at the foot of the form.

In telegrams written in plain language the length allowed for a word is 15 letters. Additional letters are charged for at the rate of 15 letters to the word.

Subject to the limit as to number of letters, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe, they are counted as so many separate words.

Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office, county, province, and country of destination in the addresses of telegrams are each charged for as one word whatever their length.

Every separate letter or figure is charged for as one word. Groups of letters in cypher and groups of figures are counted at the rate of five to a word. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

If the sender desires to prepay a reply he must insert before the address of the receiver "R P—", which is charged for as one word. A less sum than 10d cannot be accepted in prepayment of a reply.

LOWDEN'S PATENT.

OUR improvements are connected with the flyers, the object being to construct these in a simple and economical manner, and in a way which will permit of the socket being easily removed.

The advantages of such a detachable arrangement are:—

It may be made of steel and hardened, and it can be easily renewed without destroying the legs and the body of the flyer, and it is also in one piece.

THOMSON'S PATENT.

THIS invention relates to an improved method of lubricating and retaining the oil in the bearings of upright spindles, such as the upright spindles of flax and other spinning frames, and has for its object to save labour and oil, and at the same time provide an efficient lubricating bearing.

The improved spiral arrangement may be applied to plain bearings as well as to conical bearings.

By the employment of this you will find that oiling once a day is all that is required, instead of three times a day with the ordinary spindle bearings at present in use, owing to the arrangements being such that when the spindle is revolved the oil is forced up the spiral groove by centrifugal force, and on the spindle being at rest the oil is retained in the well and so prevented from being lost, as also from dirtying the other parts of the machine.

LUCAS'S PATENTS—*Continued.*

TESTIMONIAL.

LESLIE, FIFESHIRE,
4TH JANUARY 1899.

Messrs EDWARD LUCAS & SON,
Dronfield Foundry, nr. SHEFFIELD.

DEAR SIRS,

We have much pleasure in testifying to the worth of "Thomson's Patent Spindles" supplied to us by your firm in the end of 1895. They have given us entire satisfaction in the working, and we estimate the saving in oil and labour to be fully 50 per cent. as compared with what we used on your ordinary spindles formerly.

We are, yours truly,
WM. LIVINGSTON & SONS.

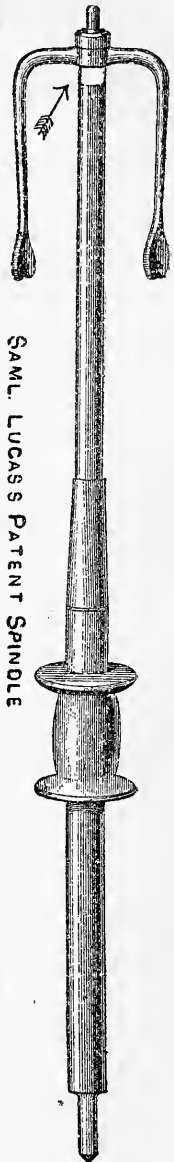

SAML. LUCAS'S PATENT SPINDLE

HAS a collar hardened and fixed under the screw, which can be replaced; and spindles worked down at the shoulder can have this patent collar put on at a small cost. The advantage of this collar is that it prevents the shoulder at bottom of screw becoming untrue by the flyer coming down on shoulder when working, the collar being equal in temper to the flyer. Many thousands of these patent spindles are now running, and are much approved. Also with steel tempered blades.

Over 50,000 running satisfactorily,

A QUESTION FOR INTENDING PIANO PURCHASERS.

“Which shall I Buy—a Piano that can be played in one way only, or a Piano that can be played in TWO ways?”

HERE are two recognised ways of playing the Piano—one with human fingers, the other by means of the Pianola.

The Pianola-Piano is a new type of Piano, which combines both methods in a single compact instrument.

The Pianola, instead of being, as heretofore, an outside attachment, has been built into the piano itself. Thus there is nothing to move up in front of the key-board. To change from hand-playing to Pianola-playing requires only a second or two. When used for hand-playing there is nothing to show that the instrument is not the usual model of a piano.

No one who aims to keep abreast of the times should fail to see this most remarkable of modern musical inventions. The Pianola-Piano may be seen and tested in the Showrooms of the Sole Agents:

"SIDEROSTHEN" PAINT, THE BEST FOR COATING—

Insides of Boilers and Economiser Tubes. It prevents the deposit adhering to the walls of the Boiler or Tube, and thereby greatly reduces the amount of incrustation. What incrustation there is can be easily removed with a brush, leaving the plates clean and smooth.

Galvanized Zinc or Iron Roofing, as it preserves it from decomposition, which no other paint will do.

Gas, Water, and Drain Pipes, as it is not affected by the moisture of the earth.

Gasometers, Tanks, Buoys, and Gutterings, on account of its power of resistance to weather and all atmospheric changes.

INSURANCE AGAINST FRAUD AND EMBEZZLEMENT.

The question of FRAUD by trusted Officials is so frequently brought into public prominence that the necessity of Employers holding adequate security on behalf of responsible persons whom they employ must be freely admitted. *It is the obvious duty of Members of School Boards, Parish and County Councils, Directors of Public Companies, Committees of Charitable Institutions, Friendly Societies, &c., to see that proper security is held on behalf of those whose funds they administer, and the moral and financial safeguard of a Guarantee Policy issued by a good Office should commend itself.*

The Premiums charged by THE NATIONAL GUARANTEE AND SURETYSHIP ASSOCIATION are based on the statistics of upwards of Forty Years Experience, and a full Prospectus, containing an approximate table of rates for the various classes of risk, will be sent on application. Special quotations are given where a large amount of business is involved.

The Association is prepared to grant immediate security to ACCOUNTANTS, SOLICITORS, AND OTHERS, in connection with Court Appointments, and will give full particulars of the special facilities afforded on application.
